Dear Mr. Sagers:

On September 8, 2003, the Division notified you that your mining operations were placed in suspension for failure to pay the required permit fees for year 2003. Continued activity was no longer allowed until the situation was resolved. On February 23, 2004, we received your permit fees for these four projects; therefore, the mine status is no longer listed as being in suspension and you may continue mining operations as before. We have changed the status from "suspension" to "active." Permit fees are required annually until the site(s) has been completely reclaimed and you have received written notification from this office that the permit is officially closed.

In order to avoid this from happening in the future, payment of the fee by the due date (last Friday in July) would be appreciated. Thank you for keeping your mine permits in good standing.

Sincerely,

D. Wayne Hedberg, Permit Supervisor
Minerals Regulatory Program
